You see that I'm here
???? pass me by
???? how to try

You were never far
???? ????
And so fine
???? take your time
??????????

Tell me if you love someone
And she tells you how to live your life
But you're looking for something more
Don't wanna be nobody else

And you let them know that
It's not you
You're not afraid
???? eyes will disappear

If you don't know where he goes
If you won't leave 'til it's done
???? pass me by
???? how to try

???? hear the noise
It makes you smile, but ???? ????
??????????
???? let's make it work
And see what we have done

Tell me if you love someone
And she tells you how to live your life
But you're looking for something more
Don't wanna be nobody else

And you let them know that
It's not you
You're not afraid
???? eyes will disappear

All of/don't want this ???? ????
All of/don't want this ???? ????

???? ???? fall out
Yesterday ???? ????
?? and I heard right
Did you ???? ????
???? ???? fall out
Yesterday ???? ????
?? and I heard right
Did you ???? ????

Tell me if you love someone
Do you love the thought?

She tells you how to live your life
But you're looking for something more
Don't wanna be nobody else

And you let them know that
It's not you
You're not afraid
???? eyes will disappear
