So I'm not around, but I still surround you.
Can you hear the sound of my love around you?
I won't be able to stay but I am glad that I found you.
Is my song ok? Can you hear me love you?

Can you hear me love you from miles away?
Can you hear me love you more than I can say?
Can you hear me love you?

So you ran me down so I ran around you.
So I rode you down and now I'm always near you.
Do you feel better today to know that I can not leave
you?
Is my song ok? Can you hear me love you?

Can you hear me love you from miles away?
Can you hear me love you more than I can say?
Can you hear me love you?

My Melody is love from me, my kisses make of
harmony.
And know I may be far away, my music is there to stay.

Can you hear me love you from miles away?
Can you hear me love you more than I can say?
Can you hear me love you?
