I know I always had a heavy heart  
I will always put on my guard  
And I never thought of you  
Should I've stuck to you like glue

(You always went through that pain)?  
I left you going all insane  
Girl I should have thought of you  
I should have seen your point of view

Oh I could try to explain  
(  
I could take all the blame  
(

And it's better late than never baby  
You know I've been next to you lately  
Now I want it how it was before

I know it may be late now  
And I know that I'm taking over  
But I'm here and I'm a super hero  
And I can save you

Baby I know you can forget the things I've done  
I know I've been away  
But I can save you now

Oh but I can save you now

Oh

I was really done (?)  
When did I have a plan on the show  
I should have been around for you  
Instead I got you feeling blue

Oh I could try to explain

()

I could take all the blame

And it's better late than never baby  
You know I've been next to you lately  
Now I want it how it was before

I know it may be late now  
And I know that I'm taking over  
But I'm here and I'm a super hero  
And I can save you

Baby I know you can forget the things I've done  
I know I've been away  
But I can save you now

Wanna talk to you  
Can you hear the sound  
Tell me what to do  
This time I'm all yours

You know I didn't meant it  
And I never thought to hurt you girl  
Why I can't feel this right  
I'll be yours now

I know it may be late now  
And I know that I'm taking over  
But I'm here and I'm a super hero  
And I can save you

Baby I know you can forget the things I've done  
I know I've been away  
But I can save you now

Oh but I can save you now

Oh
