I've never seen a girl so beautiful  
She make my heart race fast like the music go  
and baby I can give you more than the usual  
You're so perfect, I just need you to hold in my arms  
every night  
And if you love this award than I'm gladly flight  
You be outta this world, you be outta sight  
You still my number one and different, girl, probably  
right  
Because, uh, you got the whole package, lights so  
high, so high above average what we need  
Let me show you this lavish  
Like sound and the cars you've damaged  
like broken hearts and sheded tears  
I'mma make you smile through all the years  
That we're together, caught up in the middle  
Baby girl, just cry a little  
We're not a lie it's all your back  
You always run through my mind like you would be a U  
A-track  
You've got everything I want, yeah there's nothing you  
back  
You don't compare to other girls for the chick is the  
whack  
You've got that style, you got that swagger that drive  
me wild  
and when I got a show, wanna see you in the crowd  
You got me on a love high floatin' in the clouds  
and I've never felt so good about a chick  
You make it easy, easy to come here  
You always lookin' fly, girl I gotta admit, but I don't  
want to lead you on to the point I gotta quit so  
I'ma get that paper we can get a part or flight, dance?  
See you later  
Love to the haters caught in the middle  
I know you're gonna cry, girl, but cry a little
