It's Luvi

Girl you know you want it
So don't even start your frontin'
And you know I want it too
So baby if you stay out
Imma stay out
If you stay out
Imma Imma stay out
Baby if you stay out
Imma take it out
Imma take it out ohh

Well baby if you stay out
Then Imma stay out too
Cuz I don't wanna be anywhere without you
And girl you know the deal
Shawty you know what to do
Imma take you to the crib
Wanna see just how you move
Baby yeah with a guy like me
Messing with my hair girl messing with my psyche
Always on my feet
Got some J's or some Nikes
You be caught looking at my pitch like strike 3
Yeah, we got zaph on the hook
I be killing the verses gave it what it took
Yeah I gotta go to school
And I gotta read a book
But I run this camp missy you should come and take a
look
So you could really understand it
I be living just how, how I planned it
Never leave 'em stranded
Got the romance in
And Imma stay out like a drop to the canvas

Girl you know you want it
So don't even start your frontin'
And you know I want it too
So baby if you stay out

Imma stay out
If you stay out
Imma Imma stay out
Baby if you stay out
Imma take it out
Imma take it out ohh

Well you never seen a dude treat his lady so right
If I had it my way I'd be with you every night
We always get along baby no we never fight
And you know I spit fuego bout to ignite
Bout to blow the city up
Haters I get rid of ya
Wanna see your hands fans everybody get 'em up
You know that we live it up
Drop it then we switch it up
Chick gave me her number she want me to hit her up
Yeah, yeah cuz she know Luvi is the man
I'm floating in the clouds homie I will never land
I'm running it from Cleveland sweeter than Japan
And I got a Disney flow call me peter pan
Boy, I put my heart in every single line
And you thought I was lying till you saw me on my grind
And then you realized this world is gonna be mine
And if you stay out with me girl we'll be fine

Girl you know you want it
So don't even start your frontin'
And you know I want it too
So baby if you stay out
Imma stay out
If you stay out
Imma Imma stay out
Baby if you stay out
Imma take it out
Imma take it out ohh
