This is that live from the Kansas city sewer rap
These kitties want the fast rap, but I ain't doing that
... put a quarter million up but I threw it back
Cause I can make 10 million on my own, I ain't stupid
chap
This is that fucker record deal shit
That real shit, that broke up with your girlfriend
Now you needin' time to heal shit
That lethal by design shit, leo fire shine shit
That never be a table you'll catch me behind the time
shit
This is that redefine the time shit
Time six rob a robber's rolex, now his music is so
timeless
A lot of rappers keep it real I keep it irish
Phero mack, lethal twisting ...
And though I'm 30, I've been fresh since all your
fashion blog rappers
Were just birdies in the nest
You need to pay ... where the fuck...8 years old
When I was grinding trying to pave this road
I ain't mad though

See all the sell out hoes, but me, I just sell out shows
Getting clothes for free
I'm fly but I'm never gonna sell my soul
So we just fuck you ain't close to me
I said I'm looking great, I'm doing fine
I'm out here all the time, on my grind
Vodka tonic with the lime
I said I'm looking great, I'm doing fine
I'm out here all the time
With 100 dollar bottle full of wine
Get it, get it, get it, get it

I smell like good pussy, cause I get good pussy
You fucking skunks after shows and that ain't good
pussy
That girl you love I probably fucked her at the westen
But she say you special like a brother or a best friend
And she don't even let you kiss you little couger

She out here looking for a real bill stuffer
I got big plans, big dreams, ... get cream
And never slip into the fucking quick sands or shit
streams

Man, these sell out hoes will only love you if you show
out dough
So turn your fucking pimp ... and next time she tries to
trick of you
Just yell out, no bitch, let's go
And I be flirting with death
Since Raekwon the chef dropped the purple cassette
See I stayed on, ... so perfect and stepping out it's eerie
I'm clocking over 6 figures, yearly
And I don't got a record label near me, hear he, hear
he
Lately I been taking trips like ...
Minneapolis down to Cape Town, irish is fuck
Whiskey in my cup, kill them with the same sound

I said I'm looking great, I'm doing fine
I'm out here all the time, on my grind
Vodka tonic with the lime
I said I'm looking great, I'm doing fine
I'm out here all the time
With 100 dollar bottle full of wine
Get it, get it, get it, get it.
