I've seen a new sensation
I heard you call in pain
But running round in circles
Wont make it right again
The telephone keeps ringing
Your head is in the sand
The future is unfolding
But it's not what you had planned

No matter what you do
There's no escape for you
You say we go too far
You say I'll take my car

So it always ends the same
There's no one else to blame
But I'd die
If you would call my name

Caught between two evils
You should have stayed at home
To wish upon and walk upon
A planet of your own

No matter what you do
There's no escape for you
You say we go too far
You say I'll take my car

So it always ends the same
There's no one else to blame
But I'd die
If you would call my name

Yes I'd die
If you would call my name

No matter what you do
There's no escape for you
You say we go too far
You say I'll take my car

So it always ends the same
There's no one else to blame
But I'd die
If you would call my name

Oh yes I'd die
If you would call my name
