"Hard Day"

What I say is what I know
And all I can say is all I've seen
Nobody knows as well as me
Safety in numbers is just what it seems

It's been a hard, hard day
In my life
It's been a hard, hard day
For me

All I know is all I've seen
All of the faces
Are where I've been

It's been a hard, hard day
In my life
It's been a hard, hard day
For me

And when I walk
I walk the walk of a tired man
Talk, I talk about nothing at all
And when I see
I say it's hard to explain what I mean

And when I walk
I walk the walk of a tired man
Talk, I talk about nothing at all
See, I say it's hard to explain
What I mean to say

All I know is all I've seen
What I say is what I mean
How can I explain what I know
All I know is all I've seen

And when I walk
I walk the walk of a tired man
Talk, I talk about nothing at all
And when I see
I say it's hard to explain what I mean

When I walk
I walk the walk of a tired man
See I say nothing at all
Talk, I talk about nothing that's all I do

It's been a hard, hard day
For me
It's been such a hard day
For me

It's been a hard, hard day
In my life
But it's not a day
I'd choose to forget
