Mystereality

It's not the same game anymore

I know the times or the places before

You don't know, you don't know, you don't know

If you see me you'll be asking

It's always tick, tick, tick, tick, tick, tick, day

Oh, reality don't fool me

No mistakes this time

Mystereality

Well, right, it's all just promises

You know how much I hate the unforeseen

Oh, don't you know

I never, never regard for the truth

What's the meaning of that Mister R

Oh, reality don't fool me

No mistakes this time

And my, my, reality

So where did we go wrong?

Have you seen just a-recently

The lengths to which we've been

Now you could say that it's time

Mistakes, they seldom work

Oh, reality don't fool me

I count on you to know
