There's no victims only volunteers  
Been the same throughout the years  
Step right up and cry your tears  
Face to face with all the fears

They don't want you they don't need you  
They just use you they just bleed you  
They don't want you they don't need you  
They just use you they just bleed you

New babies and new toys  
It's better with the girls but it's bigger with the boys  
Sold a dream but you got no joy  
It's better with the girls but it's bigger with the boys

There's no heaven there's no hell  
Cream will float but shit will sell  
Step aside avoid the smell

I surrender, ring the bell

They don't want you, they don't need you  
They just use you, they just bleed you  
They don't want you  
They just bleed you

New babies and new toys  
It's better with the girls but it's bigger with the boys  
Sold a dream but you got no joy  
It's better with the girls but it's bigger with the boys

Bigger with the boys, bigger with the boys
