Play, play, try one more time the last chance in your life.

You're in fire but have a plan you don't wanna lose again.

Play, play, sucker, play motherfucker lose all your money and die.

Hey, Mr. Joker king of the poker, no one will catch you lie.

Your illusions have no way out.

Lose all your money and die.

Hey, Mr. Joker king of the poker, no one will catch you lie

Your illusions have no way out.

But you'll die and won't find out.

Your calculations have always been false.

Between red and black there's no difference.

Play, you had all in the world family, friends, freedom and gold.

Play, you are strong and cool but the game is stronger than you.

Play, play, sucker, play motherfucker Lose all your money and die.

Hey, Mr. Joker king of the poker, No one will catch you lie.

Your illusions have no way out.

Lose all your money and die.

Hey, Mr. Joker king of the poker, no one will catch you lie.

Your illusions have no way out.

Lose all your money and die.

Hey, Mr. Joker King of the poker, No one will catch you lie.
