Look in my eyes, drop in my soul.
Here you belong.
Your words cold like ice, your heart like a stone.
This can't be go on.
This can't be go on.

May be I'm crazy, but I won't let you go.
Hey, look I'm blazing, I've never felt so low.
(I felt so low)
May be I'm crazy, but I won't let you go.
look I'm blazing, I've never felt so low.
I've never felt so low.
I've never felt so low.
I've never felt so low, low, low.
I've never felt so low, low, low.
But I can't understand why you go.

Tears running down.
Say you are mine.
Just one last time.
Feel myself drown.
You ruined my life.
But still I'll survive.
Tears running down.

Say you are mine.
Just one last time.
Feel myself drown.
You ruined my life.
But still I'll survive.
I'll survive
(I wanna cry)

(I wanna cry!)

You say you're leaving.
Oh, God, make me strong.
Here you belong.
This word so killing.
Have I done something wrong?
This can't be go on.
This can't be go on.

May be I'm crazy, but I won't let you go.
Hey, look I'm blazing, I've never felt so low.
(I felt so low)
May be I'm crazy, but I won't let you go.
look I'm blazing, I've never felt so low.
I've never felt so low.
I've never felt so low.
I've never felt so low, low, low.
I've never felt so low, low, low.
But I can't understand why you go.

Tears running down.
Say you are mine.
Just one last time.
Feel myself drown.
You ruined my life.
But still I'll survive.
Tears running down.
Say you are mine.
Just one last time.
Feel myself drown.
You ruined my life.
But still I'll survive.
