Take me take me away  
From this dying world  
Take me take me away  
To watch as it burns

You will never take these words from my lips  
Absorb my heart as it rips  
From the veins that keep it in check  
To make up for the time you have spent  
Wishing and hoping and praying that this will change

But you can't change our minds this time  
This world belongs to us  
Greedy hands ripping flesh from the bones

Oh god Can you beat the enemy?  
The one furthest from the front of your mind  
Stashed back from eradication  
Forcing the patterns that shift while they bind

Greedy fingers  
Sleazy heads  
Taking what I have held so dear  
Perverting  
Bastardizing  
Bring justice swiftly  
Bring justice to me  
Bring justice swiftly  
So we may rebuild the world  
Rebuild the world

Oh god Can you beat the enemy?  
The one furthest from the front...  
Line them up to watch them fall

Oh god Can you beat the enemy?  
The one furthest from the front of your mind  
Stashed back from eradication  
Forcing the patterns that shift while they bind

Fall down deep into the boiling pit  
Inhale you're gripped by the heat

As the cells of your lungs burn and separate  
Divide and turn up your feet

Lights to perfection  
With just the right tone  
They'll make you think it was your own  
No Kings No Crowns  
No Kings No Crowns
