

## Omen "In The Arena"

Visit "[In The Arena](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The sweat just pours from your body combat is nigh  
Into the arena we march to die

Your blood spills to the ground your body feels broken  
You face the earth and breathe the dust again  
Your head is spinning you feel another blow  
You hear the steel rip you to the bone

Chorus:

In the arena oh mighty gladiator  
In the arena you are the chosen warrior

In armor and mail you were born to fight

Learned how to kill keeping the gold in sight  
Who can match your fury none can give you such pain  
Part man and beast time to battle again

Chorus

Your head is spinning you feel another blow  
You hear the steel rip you to the bone  
Your blood spills to the ground your body feels broken  
You hear the steel rip you to the bone

Chorus
