Meet me in the shadow of the living gargoyles  
The howling of wolves will surround us tonight  
With their mystical beauty their voices will possess  
Dragging us into the darkness of our own souls

I'll show you the moon as it sets and a heavy darkness  
rises  
'Til the dawn of black sun we'll travel along this  
shadowed land  
By the first lights of sun we shall be back at where  
we've met  
So walk faster my friend and I'll bring you to where the  
candles burn black

Pray your sins now in the darkness of the black flames  
In this unholy church you are the priest of yourself  
Baptize your sinner soul again, dedicate it to hell  
Wash yourself in the bloody, cold unholy water

Here is the path that never ends  
The path of sins with no regrets  
Demons call you from so far away  
Once you walk the path, no hallowed soul you have

I'll show the temple where the tyrants ruled the night  
Now all are gone but evil spirits guard the door to dark  
side  
Climb up the stairs leading up to the horrid darkness  
inside  
But never enter the chapel of night when they pray for  
a sacrifice

A cursed soul enslaved in the dark dungeons of a  
nocturnal forest  
He will beg you to unlock the door to his own eternal  
freedom  
And then you shall walk past him to save your own soul  
Or you'll be the one to be enslaved and he will be so far  
away

Here is the path that never ends

The path of sins with no repents  
Demons call you from so far away  
Once you walk the path, no hallowed soul you have
