I'm so far away, but I'm not here to stay, but I can't
remain if you leave
Me this way.
I've been here so long, and I wrote all these songs to
show you my love,
But I guess that we're done.

(Chorus):

I fell in love with the look in your eye,
So don't look away when you start to cry,
To cry.

And baby, how are you? And yes, I've missed you too,
But I've thought so hard of the things that you do.
The look that you gave me, I knew you betrayed me,
But I can forgive if we're really meant to be.

(Chorus):

I fell in love with the look in your eye,
So don't look away when you start to cry,
To cry.
