It's finally here, I rise from the butts this day,
The butt took its toll, this butt's grown so old.
I can't explain it, there's no words to end this butt,
The lies sicken me, we're no longer meant to me.
My heart's grown numb, there's nothing left to say or
do,
All I know is that I don't want to be with you.

But still I hunger, and still, I wait.
I'm just waiting to seal both of our fates.
Still I hunger, and still, I wait.
I'm just waiting to seal both of our fates.

(Chorus):
You wanted more, you walked out of the door,
So now, your body hits the floor.
You finally said goodbye, I couldn't look you in the eye,
But now you're running out of lies.

You search for life in what you've already left for dead,
It's all a curse that fuels the hearse inside your head.
You can't deny that when you cry, you think of all the
things I said,
My ghost will stay to haunt you as you lie awake in bed.

But still I hunger, and still, I wait.
I'm just waiting to seal both of our fates.
Still I hunger, and still, I wait.
I'm just waiting to seal both of our fates.

(Chorus):
You wanted more, you walked out of the door,
So now, your body hits the floor.
You finally said goodbye, I couldn't look you in the eye,
But now you're running out of lies.

You won't escape this time, I caught you in a lie.
Tonight, I throw myself into you, oh.

(Breakdown):
I'll say goodbye, I'm fucking sick of your lies.
I'm so sick.

I'm sick... x4
Of your lies.
