How dare you fucking accuse me, I'll give you  
something to hate.  
It's not how many you know, it's all the friends you  
make.  
You point your finger, so now it's time to fucking speak.  
You're full of shit, what do you want from me?

I don't give a fuck about what you have to say,  
I'll make my choice alone.  
All of those who stand against me won't change,  
You're all fucking clones.

(Chorus):  
My name echos with hatred, your words wont change  
who I am,  
What I am.  
My name echos with hatred, your words wont change  
who I am,  
What I am.

Every fucking day, I make it seem like nothing,  
You never would of listened until I was something,  
In my chest, a heart still fucking beats.  
I'll make you all wish you never fucked with me.

I don't give a fuck about what you have to say,  
I'll make my choice alone.  
All of those who stand against me won't change,  
You're all fucking clones.

(Chorus):  
My name echos with hatred, your words wont change  
who I am,  
What I am.  
My name echos with hatred, your words wont change  
who I am,  
What I am.

And I'd give it all to see this kingdom fall to its knees.  
In the end, you all will learn to bow to me.  
There's so much more to this life than what you see.  
It's pain, and misery.

Pain x2
