Function in the spirit and he'll show you his hidden  
treasures;  
You're amongst the chosen, so take your place  
As ministers of the word.  
He says through you will I uproot what the enemy has  
planted  
You're not needy  
There's a new fire in you.

Reach out to your world; God has called you to win  
souls.  
There are so many lost souls, so many lost souls  
You've got to win them to Christ.

Chorus.

There's a fire in you, there's a fire burning in you

You've got the fire in you  
Don't quench the fire, just let it shine.  
X3

God's word is light; if you walk in it you cannot stumble  
God's word is light, if you walk in it, it shines in you  
He has made everything beautiful in his time  
There is no limit to what you can achieve

Chorus

You've got the fire in you  
You've got the fire in you  
You've got the fire in you  
Don't quench the fire, just let it shine. X2
