I could never get over you baby. When I first met you man it was crazy. You thought I was feeling myself to me. You so freakin Irkin ' I tried to forget the losers you were really hanging with. I tried to forget the people forget the people that told you I wasn't ready. Never get over the look you give me like I could get it. If I was with it.

This time you kiss me, I could tell it was different than the feeling that I was giving. This feeling that have been missing my whole life. I aint tryna letting go. I know that I been trippin but I aint never gave my heart to nobody
I thought I did but when you came I choose you I really did. Anything you do I'll finding my heart to forgive it.

When I'm riding, you look at me like I could get it. If I was with it.

First time he kiss me, I could tell it was different than the feeling I was giving. This feeling that have been missing my whole life. I aint letting go.

I know that I been trippin but I aint never gave my heart to nobody

I thought that when you would came up, you choose what I'll really did. Anything we'll do to finding my heart to forgive it
