Ok, you got your feelings hurt  
Cause the man you love did not come last night  
But the way you see it, baby girl  
Maybe you should let him go  
So I can treat you right  
[Bridge]  
Because it don t make sense at all  
For you to be so miserable  
When you can be with a guy like me  
That can treat you better  
You shouldn t have to sleep alone  
I got a bed that will keep you warm  
So can we take this relationship to another level  
[Chorus]  
So if this love don t work  
You should come home with me girl  
I ll give you what you ve been missing tonight  
And this love ain t right  
Baby follow me and I  
I m gonna give it to you, give it you  
Give it to you, all night  
And you be screaming out like  
Oho, oho,  
And you be screaming out like  
Oho, oho,  
You re looking like your heart is broke  
Let me guess you caught him in another lie  
Well I m here to tell you that you don t  
Need to take this, cause I m your angel in disguise  
[Bridge]  
Because it don t make sense at all  
For you to be so miserable  
  
That can treat you better  
You shouldn t have to sleep alone  
I got a bed that will keep you warm  
So can we take this relationship to another level  
[Chorus]  
So if this love don t work  
You should come home with me girl  
I ll give you what you ve been missing tonight

And this love ain t right  
Baby follow me and I  
I m gonna give it to you, give it you  
Give it to you, all night  
And you be screaming out like  
Cause I ain t afraid baby  
To do the things your man won t do for you babe  
Let me replace, girl I swear you ll never ever have to  
complain!  
[Chorus]  
So if this love don t work  
You should come home with me girl  
I ll give you what you ve been missing tonight  
And this love ain t right  
Baby follow me and I  
I m gonna give it to you, give it you  
Give it to you, all night  
And you be screaming out like  
Oho, oho,  
And you be screaming out like  
Oho, oho,  
I ll give you what you ve been missing tonight  
give it to you, give it you  
Give it to you, all night,  
Oh yeah, baby.
