

## Marcus J Mitchell "When You Call"

Visit "[When You Call](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I know what that is and who's calling me too  
My phone has a ring especially for you When You Call  
When I open my phone I see a picture of you  
It makes me laugh sometimes you hear me laugh too  
When You Call

Chorus: Um there's no other one I adore  
There's no other one I love more  
I guess I feel some kind of thrill  
When You Call

When the cold winds begin and the winter blows in  
You know there's a friend on the other end When You  
Call

And when the night time goes on, on and on  
And the right time seems wrong you won't be alone  
When You Call

Repeat Chorus

Bridge: Springtime, Summertime and other times  
You're on my mind almost all the time  
You're on my mind.

Instrumental

Repeat Chorus
