

Omnium Gatherum "The Return"

Visit "[The Return](#)" on MotoLyrics.com

Pick it up
From there
Where it was left
Aright thing to do
Multiply
Yours truly
Be a star among the stars
So far
Joining and sharing the light
We all are

There is no real burden
In helping others
Realize the angel
Inside a promise

All those years
They were never in vain
'Cause the pain
It guides the way
Back home

Don't you fall back
You are worth the honour
And if they cry
Weep with them
And give away
All you ever received

Don't you...
Enjoy the talks with me
Don't you...
Respect the privacy
