Boy, you've got me caught up in a daze (waiting)
Just one word is all that it's gonna take (to have me
baby)
But 'til we meet I'll be imagining (over and over)
Scenarios how our love could go someday

CHORUS:

But daydreaming is all that I can do
'Til I can get close to you
Each day gone feels like eternity
I'm waiting for your love come set me free

I've planned every moment passed hello (so amazing)
The words you'll say, the places that we'll go (together
we're better baby)
Take me past my dreams and I'll show you
The best love you've ever had for sure

CHORUS:

But daydreaming is all that I can do
'Til I can get close to you
Each day gone feels like eternity
I'm waiting for your love come set me free

Lost inside my mind
Are these visions of us
But I'm ready to find out
What you're like beyond them
So bring your love to me
I wanna be set free cuz
I'm a prisoner to my daydreams
