I hear the asphalt's layed down fresh on mainstreet  
And the kids are already puttin' their little footprints  
down

And the angels are dressed to the nines  
It's quite a sight to see  
But not until those bad boys come around  
And there's a little house up on first ave  
Where the party has already started  
So saddle up your pick-up trucks  
This ain't no social life for the faint hearted

Chorus

It's a Devil of a town  
Devil of town yea  
Devil of a town  
Devil of town yea

And the motels are never empty, there's a room if you  
need it  
And the mayor he's got a monthly bill that, he don't talk  
about  
So if you've got a ring on your finger  
Don't worry cause it don't mean much  
Soon enough those bad boys will come around  
And the church is never full on sunday  
Cause there ain't no social life for the faint hearted

It's a Devil of Town  
Devil of town yea  
Devil of a town  
Devil of town yea  
It nothing but a devils town yea  
Repeat Chorus  
Nothing but a devils town
