Throw me a sign and I'll leave it alone
So I can bury my own
I tear at this pain, this darkness I've known
This time it has won
Retreat inside until the threat is gone
Oh how we've buried our way
Throw me a sign and I'll leave it alone

Once I feel it
Once it's in my head, I know
This time I'm leaving
For all the times that you did before

Throw me a sign and just lead us astray
But may the rest of our days, somehow reveal that it
was all just a waste
And how could we have known
And where in the world has our good fortune gone?
We've got to find it some way
And how in the world did we end up alone

Once I feel it
Once it's in my head, I know
This time I'm leaving
For all the times that you did before

Once I feel it
When all trust is dead, I know
This time I'm leaving
For all the wrong that you did before

(Solo)

Once I feel it
Once it's in my head, I know
This time I'm leaving
For all the times that you did before

Once I feel it
When all trust is dead, I know
This time I'm leaving
For all the wrong that you did before
