You know where I'm coming from
When I say what I say
It's not about last night
It's more about the things to come
To lose you to spring breaks
That you view as accepter
But it wounds me to that this can't
Last forever on love alone
I seem to recognize your radiance
Perhaps it's time you spread your wings
You know, fly
That's all I can tell you
But I don't do so weel with change
But I can't live this way foever
I don't know what you are looking for
But I know it's not here
