VERSE 1

My heart is not blind
(You're so beautiful to me)
One of a kind
(It's unbelievable to see)

How you can read my mind
Everytime words can't be found
You're everything I need
Take my hand, fall with me

CHORUS

I will cross the whole galaxy just to make you mine
I will make our love endures until the end of time
Baby, come to me, oh come to me
Oh come to me tonight
Baby, come to me, oh come to me
Oh come to me tonight

VERSE 2

I'm afraid to cross the line
(So much emotion inside)
We been friends enough time
(Can't hide what I feel tonight)

You make troubles disappear
With just one of your smiles
I can feel love in the air
Let's fly above a thousand miles

BRIDGE

Come to me for the night,
Let's spend a perfect moment together
We don't have to hide what we feel tonight.
Let's make the night last forever (ever.. ever.. ever...)

CHORUS

I will cross the whole galaxy just to make you mine
I will make our love endures until the end of time
Baby, come to me, oh come to me
Oh come to me tonight

Baby, come to me, oh come to me
Oh come to me tonight
