When you come around
There is a strange feel
I am nervous
And I cannot come down every single time I look at you
When I get up and look when I finally find the right
words to say
Hope I don't sound absurd this is really hard to me too
Here I come feel shaking me up
Will you take me up on the suffer
I am not giving up

Chorus

Giving you my all hoping that you fall for me
If it's not enough it's gotta count for something
Giving you my all hoping that you fall for me
If it's not enough I can't give you nothing

You are not just a girl you are so much more than a
woman
And you .. In this world only comes once in a lifetime
Though I have not a lot what I do have is way more
precious
Gonna give what I got baby I am too .. making mine
Don't be wrong if I am coming too strong
Girl I am singing this song .. belong

Chorus

Giving you my all hoping that you fall for me
If it's not enough it's gotta count for something
Giving you my all hoping that you fall for me
If it's not enough I can't give you nothing

Thanks to feel
