What was that that came from nowhere  
That could make our lives just perfect  
You can never know  
When it comes or where it is

Like two crazy kids together  
Have no fear from anythin'  
What is wrong and what is right?  
I'm made for you you're made for me.

Feels like somethin' new inside  
And I don't know the reason why  
All I really want to do  
Is give the butterflies for you

Every night I'm looking for you  
There's a place we've made together  
That I can't see now  
But it is somewhere in the air

And now I realise  
What's the worth of our lives  
There's no right decision  
This is how it is - now or never.

Feels like somethin' new inside  
And there is no reason why  
All I really want to do  
Is give the butterflies for you
