Here I'm standing
Ready for a new life
Ready to go this long way
Who knows what will happen?
Cold rebel skin
Smell of moonlight
I've never been there
In the heaven of hell
Awaken
In this new world
I'm ready to go
And nothing will stop me!

Awaken
In this new world
I'm ready to go
And nothing will stop me
Try not to see me
And try not to feel me
Try not fear me try, try
My shadow is with you
My shadow is near you
My shadows inside, inside you /2x/
I'm on my way /8x/
