[Intro]Yeah... Uh ha! Leggo!

[v1]On a sunday, a very sunny day
It was me walkin in the streets like any other day
Its just a short walk, to kill some time
It felt so good since it was summer time
Oh! it was like 30 degrees
The sun so high, my lips got dry
I decided to get a little wet tok
So I stop and chilled for a while in a restau
I ordered ice-cream, vanilla ice-cream
Like everyday from my room I used to sweet dream
Hehe, and I sat by the window
So I could feel cool good when the wind blows
And thatz when I saw this girl, so hot
Damn men, I decided to say hi
But she didnt speak much english as I
So I had to summarise...

[Hook]I just wanna take you home
Then be with you all day and all night long
I just wanna take you home
I'll make you my queen and baby I'll be your king
You will be for me and I'll be for you
And all the good things I'll give to you (I'll give to you)
I just wanna take you home, I just wanna take you home

[v2]Baby chill in my home
No need to my lie, I aint got a big home...
3 bedrooms, a kitchen,3 bathrooms
But connecting all the big rooms you will see
Are just big hallways, with pictures all on the way
You can keep looking all the fuckin' day
The sittig room has a big sofa
In chinese they call it, shafa!
Now lets get this tag to another level
Girl, I've been always on higer levels
Lets make it real and create our own temple
Then be normal, be more simple
Introduce you to my parents, and me to your parents
Ofcourse one day baby we could be parents

Yes! you will be a mama and I'll a be papa
And I promise ima always be there

[Hook : Repeat]

[Bridge]Girl x5, wanna take you home

Girl x5, wanna take you home

And I will be ya ??? you will be ma ??? x2

Girl x5, wanna take you home

Girl x5, wanna take you home

And I will be ya ??? you will be ma ???

And I will be ya....

[Hook : Repeat x2]
