one more day got away, one more day slipped away  
that's one more reason that we should run away

there's still blood in these old bones, and i don't care  
what you say  
i've got many miles to go many stops along the way

this summer isn't over, this summer let's be free  
California's calling, she's waiting there for me  
you stand in the doorway, i;m standing my ground  
there's room for two on my way, i'm not waiting around

one more day got away, one more day slipped away  
that's one more reason that we should run away

there's still blood in these old bones, and i don't care  
what you say  
i've got many miles to go many stops along the way

this summer isn't over, this summer let's be free  
California's calling, she's waiting there for me  
you stand in the doorway, i;m standing my ground  
there's room for two on my way, i'm not waiting around

one more day got away, one more day slipped away  
that's one more reason that we should run away

i know love and i know pain and i'm usually to blame  
as i wind on down the road, i really wish you came

this summer isn't over, this summer let's be free  
California's calling, she's waiting there for me  
wrote this on a postcard, i hope it finds you soon  
soon i'll need some money, i'll be calling you

one more day got away, one more day slipped away  
that's one more reason that we should run away  
one more day got away (one more day)  
one more day slipped away (one more year)  
that's one more reason that we should run away
