"The Road"

Visit "[The Road](#)" on MotoLyrics.com

you say you want me
so i look back and i keep going anyway
you say you need me
so i look back and i say come along

this old road, this dirty road, it's all i know
i keep going anyway
ain't nothing wrong, with a little fun, might take long
i keep going anyway

you say you need me
where am i when things aren't going all your way
don't you believe me
if i look back i can't be around

this old road, this dirty road, it's all i know
i keep going anyway
ain't nothing wrong, with a little fun, might take long
i keep going anyway

on i, on i roll (x4)

you say you want me
and i don't think that things are ever going to change
you say you need me
so i look back and i say come along
you say it's easy
oh babe i think there's got to be a better way
don't you believe me
if i look back i can't be around

this old road, this dirty road, it's all i know
i keep going anyway
ain't nothing wrong, with a little fun, might take long
i keep going anyway (x3)
