Make it right, let's do it on a level playing field tonight.  
Play it fair, get ready to act like if it was your time.  
L.A. is calling you, let's get into it and see what it has to give.  
There is fake in here, call it Wonderland,  
And don't forget dreams come true.

Let it shine, keep on dreaming, Angels live in Holly  
lands.  
From the hills to the ocean, L.A. shines. Don't burn your  
eyes.

L.A style: here you're gonna walk the "palm tree",  
"rainbow" line.  
Don't be afraid about the dreaded Big One, Marvel will  
save us.

On Ventura blvd, working at a mom-and-pop, get ready  
to show up on time.  
When the moon rises over Eagle Rock, take it as a sign

Let it shine, keep on dreaming, Angels live in Holly  
woods.  
From the hills to the ocean, L.A. shines. Don't burn your  
eyes.

Maybe driving Riverside all night could take you to new  
heights  
"Suburbs in search of a city", this has been L.A all  
along...

Let it shine, keep on dreaming, Angels live in Holly  
woods.  
From the hills to the ocean, L.A. shines. Don't burn your  
eyes.
