### (VERSE 1)

Last night I seen you with another man, you weren't holding hands.  
He spoke to you with an angry voice, you listened, he gave you no choice.  
You force yourself to believe all his lies,  
Cuz you don't want the tears to fall from your eyes.  
You feel like there's no where to run, you fell in love now you can't get  
Up.

### (CHORUS)

You deserve so much more.  
Your beautiful, everything I adore.

### (VERSE 2)

A girl like you needs long romantic walks,  
Cute little talks, at night on the dock.  
Lips that kiss you, in the rain.  
A voice to calm you down, when your about to go insane.  
Arms to lay in, on cold winter nights.  
A picnic in a flower field on those cool April nights.  
A listener when you just want to talk about nothing.  
If you ever walk away, feet that'll come running.

### (CHORUS)

You deserve so much more.  
Your beautiful, everything I adore.

### (OUTRO)

You deserve so much more.  
Your beautiful, your beautiful.  
Everything I adore.
