I'm so lost in love,
with no rhythm or rhyme.
I'm starsruck,
I'm so stuck with no sense of time

I fall apart
When you're gone I think
that I need your love
Just pull me
right back to start
I dont know what this could be
so lost in your mystery

caught up in your GRAVITY
Don't know how you got
such a hold on me
caught up in your GAVITY
You know I never want
you to set me free
caught up in your GRAVITY
(gravity)
caught up in your GRAVITY
caught up in your GRAVITY
caught up in your GRAVITY
(gravity)

It's just you
You're all I need
to keep my heart tied
when you're here
I wouldn't fly away
oh no I won't even try

we fall apart
when you're gone I think
that I need your love
Just pull me
righ back to start
I don't know what this yould be
so lost in your mystery

caught up in your GRAVITY

don't know how you got
such a hold on me
caught up in your GRAVITY
you know I never want
you to set me free
caught up in your GRAVITY
(gravity)
caught up in your GRAVITY
caught up in your GRAVITY
caught up in your GRAVITY
(gravity)

There's no way to stop
this attraction
cause baby you're my satisfaction
if you disappeared
It's like the world would fall
I would lose control
so never let me go
never let me go

oooOoooO

not even the flight
Through the galaxy
could ever keep me away

caught up in your GRAVITY
(From you)
Don't know how you got
such a hold on me

don't know how you got
such a hold on me
caught up in your GRAVITY
You know I never want
you to set me free
caught up in your GRAVITY
caught up in your GRAVITY
(never set me free)
caught up in your GRAVITY
caught up in your GRAVITY
(GRAVITY)
