I think I'm falling for this girl I know
She's so amazing, met her at my last show
And now I'm crazy for her and can't let go
Oh woah oh oh no

I hope she's feeling the same way that I do
And when she sees me, she gets butterflies too
Cos there's no way that I'm gonna make it through
If our love's not true

So someone tell me now

How do I know if she feels the same?
What do I do if she just won't say?
Baby I want you, is that okay?
How do I make her see, we got the chemistry?

I asked her round and we watched a movie
But couldn't tell her what she's done to me
I hope one day that she will finally see
Oh woah oh baby

Does she like star wars? I guess the answer's no
I wish I knew more 'cause now I'm here alone
She walked out the door and then she rang my phone
I think she's got me sewn

So someone tell me now

How do I know if she feels the same?
What do I do if she just won't say?
Baby I want you, is that okay?
How do I make her see, we got the chemistry?

Does she wake up at night like I do?
Thinking of me but scared to say too
In case I say girl I don't want you
How do I make her see we got the chemistry

And I can't shake this feeling now
I hope she's figured out
She's the one for me

We got that chemistry

How do I make her see?

How do I know if she feels the same?

What do I do if she just won't say?

Baby I want you, is that okay?

How do I make her see, we got the chemistry?

Does she wake up at night like I do?

Thinking of me but scared to say too

In case I say girl I don't want you

How do I make her see we got the chemistry

I think I'm falling for this girl I know

We got the chemistry
