Prayer in silence brings forth a new day,

It's not a ritual, It's the way..

They live a simple life,few amenities..

Things only block the way to the Lord duties..

Responding to the thirst of Jesus..

Living to serve the poor among-st us...

Carrying out mother Teresa's request..

They serve unselfishly with little rest..

Earth Angels were sent down from heaven..

To show us how to love our brotheren...

They carry their crosses with no complaints...

Earth angels are our living saints...Earth angels are our living saints..

A smile is a common expression,always...

And hopeful in a hopeless situation....

To meet the demands in the over-crowded city...

They totally rely on, God's mercy..

Exposed to the most dreaded diseases....

Their only worries. what God pleases..

In the midst of traffic noise and despair...

The hymns from earth angels fill the air..
