There's no medication if you're Benny's patient
He'll give you such a headache for any small
mistake you make
He'll shake you shake you shake you off your
richter

He says girl I got some issues as he waves goodbye,
handing me the tissues cause he's that kind of guy
I'd suggest a conversation but that's not in his nature

Whoa!

He walks into my life just like he owns the place,
sits me in the corner looking at my face,
throwing accusations, doesn't let me talk at all

Whoa!

He's patient and kind (most of the time, haha)
He'd guard me with his life
imperfect but mine

He just wants to like what he likes and do what he does
without any of my girly complications
He just wants to say what he says and go where he
goes
without any regard for my sensitive situation

He takes for himself the best of me
and leaves me with nothing but the rest of me

Whoa!

How did we get here?
I'm searching for how
I walked here in circles, you came on a stretcher
now you're getting kinda strange on me!
I was finally gonna come and be different
and now I think I barely can speak

How did we get here?
I'm searching for how

How did we get here?
I'm searching so quickly
How did we get here so quickly
How did we?
