[Chorus]

I've been so many places, seen so many faces
One thing that remains the same is
When you reach the top everybody hates you
Ain't no better , of desert in my odd oasis
Smoking , sipping, drinking
Hustle every day, counting franklins
It's me against the world, it's me against the world

I put so much work it, my back's hurting
So I'm that certain, this my purpose
Rock so many shows, and so many crowds
And everywhere we go, we got them screaming loud
But then I see the down, when I'm back home
To the city, I'm the fucking backbone
No fair weather fans, you see the love or hate
So if you don't shake my hand homie I'm straight
See I don't hold no grudges, show no judgment
Rather sit back and roll some dutchess
Won't wait for love like waiting on busses
So you keep rolling and I'll keep trucking

[Chorus]

I've been so many places, seen so many faces
One thing that remains the same is
When you reach the top everybody hates you
Ain't no better , of desert in my odd oasis
Smoking , sipping, drinking
Hustle every day, counting franklins
It's me against the world, it's me against the world

I'm going out of mind, I wanna scream loud
Shit's going slow like I'm leaned out
Trigger to my head, wanna squeeze now
I feel this in my soul, so I gotta freestyle
No time to write this, no time to fight this
No one can stop us when the city is united
In the zone like I'm going off that white bitch
Hoping I could do something big before the time ticks
Ticks, ticks away in this cemetery with my foot up in the
grave

I could die any day, go out in a blaze
And the more things change, the more they stay the
same

[Chorus]

I've been so many places, seen so many faces
One thing that remains the same is
When you reach the top everybody hates you
Ain't no better , of desert in my , oasis
Smoking , sipping, drinking
Hustle every day, counting franklins
It's me against the world, it's me against the world.
