Put your heart in it  
You can go the distance  
Me and you against the world  
(Against the world)  
Sky is the limit  
Push to the finish  
Me and you against the world  
We did it for love  
We tried and we won  
We'll never give up  
It's me and you against the world

What I know right now is I came so far.  
To my heart you got a key,  
I was lost then you found me.  
Through all the glamor  
Of the lights and the cameras  
Honestly, all you saw was me.  
You didn't care what they said,  
You stood by me instead.  
Together, we're a stronger team, oh.

Put your heart in it  
You can go the distance  
Me and you against the world  
(Against the world)  
Sky is the limit  
Push to the finish  
Me and you against the world  
We did it for love  
We tried and we won  
We'll never give up  
It's me and you against the world

I know in my dreams, they say I'm crazy.  
No matter what, when you're around  
It feels like we both are certain  
It's the real thing,  
Nothing beats the feeling.  
Only our hearts can know.  
Who cares what they say?

They can't get in our way.  
Two dreamers just dreaming o-o-on.

Put your heart in it  
You can go the distance  
Me and you against the world  
(Against the world)  
Sky is the limit  
Push to the finish  
Me and you against the world  
We did it for love  
We tried and we won  
We'll never give up  
It's me and you against the world

We fight together  
We're down forever  
Me and you against the world  
We stick together and it gets better  
Me and you against the world

Put your heart in it  
You can go the distance  
Me and you against the world  
(Against the world)  
Sky is the limit  
Push to the finish  
Me and you against the world  
We did it for love  
We tried and we won  
We'll never give up  
It's me and you against the world
