(Intro Chorus)

We are nothing without it
We are nothing without it
We are nothing without love
Cause there's just something about it, we can't live
without it
We are nothing without love
Nothing without love
We are
We are

(Verse)

Stop. Let me tell you bout a time in my life when I was
sitting out
Wishing that she was still around every night.
Thinking about you, call your phone
Never get a busy tone, we could go somewhere alone
And it would be alright.

(Pre-Chorus)

I could have everything that this world has to offer
But without you it wouldn't mean a thing.
I could have the riches baby on a silver platter
But I would trade it all for just one ring

(Chorus)

Cause we are nothing without it
We are nothing without it
We are nothing without love.
There's just something about it, we can't live without it
We are nothing without love.
Nothing without love

(Post Chorus)

We are
Nothing without love
We are
Nothing without love

(Verse 2)

Let me tell you about a girl on replay in my mind

everyday
Wish she would never go away, please stay.
Kissing you from head to toe, say I love you so you
know
That I'll never I'll let you go, I'll take the burn, to touch
your flame

(Pre-Chorus)

I could have everything that this world has to offer
But without you it wouldn't mean a thing.
I could have the riches baby on a silver platter
But I would trade it all for just one ring

(Chorus)

Cause we are nothing without it
We are nothing without it
We are nothing without love.
There's just something about it, we can't live without it
We are nothing without love.
Nothing without love

(Post Chorus)

We are
Nothing without love
We are
Nothing without love

(Bridge)

People we all take love for granted
We don't know what we got until it's gone
People we all take love for granted
We don't know what we got until it's gone

(Breakdown Chorus) (Chorus)

Cause we are nothing without it
We are nothing without it
We are nothing without love.
There's just something about it, we can't live without it
We are nothing without love.
Nothing without love

(Post Chorus)

We are
Nothing without love
We are
Nothing without love
We are
Nothing without love
