

Alex Lloyd "Follow"

Visit "[Follow](#)" on MotoLyrics.com

Careful steps we take
Don't want this bridge to break again
In this winter's cold
Embrace the love we used to know

Wherever you get, wherever you go
I'll follow you
With every new breath and every new test
I'll be with you

As the sharks start swimming
Circle at your feet again
In this new beginning
We repeat mistakes again

Wherever you get, wherever you go
I'll follow you
With every new breath, and every new test
I'll be with you

Wherever you get, wherever you go
I'll follow you
With every new breath, and every new test
I'll be with you

I follow, I follow, I be with you
I follow, I follow, I be with you
I follow, I follow, I be with you
I follow, I follow, I be with you
