So are you ready...
yeah...
come on...

let's do it...

whoo yeah - whoo yeah
all my ladies

Let's do it..

All my ladies...

I know the girls inside
they want to get on with the ladies
But there are always fellows there to stir or make you
crazy
They try to get you flaky
Can't find a bus no maybe's
You think that girl is a trader
But them *** instigator

Turn it up with your jewelry on
Make your moves with your lipstick on
Want some of that cousy stuff

Wooowoohoo - Wooowoohoo

Let's jump when the music is on
All my girls living up till dawn
Want a little bit - sing this song

Why do you think that every girl out there's your enemy
Your luck no matter with the green I feel of jalousy
It's not the way it is supposed to be
So come on ladies dance with me
And I tell you .. no no no no-no-no no no no no nooo

Turn it up with your jewelry on
Make your moves with your lipstick on
Want some of that cousy stuff

Wooowoohoo - Wooowoohoo

Let's jump when the music is on
All my girls living up till dawn
Want a little bit - sing this song

Wooowoohoo - Wooowoohoo

Let's feel the rhythm, everybody gotta to lose control
All my ladies get together we will get on a roll
Feel it in your soul
If you move it get them down
It's time to look around

You got to think about it
You'll beat them up yourself

Turn it up with your jewelry on
Make your moves with your lipstick on
Want some of that cousy stuff

Wooowoohoo - Wooowoohoo

Let's jump when the music is on
All my girls living up till dawn
Want a little bit - sing this song

Turn it up with your jewelry on
Make your moves with your lipstick on
Want some of that cousy stuff

Wooowoohoo - Wooowoohoo

Want some of that cousy stuff

Wooowoohoo - yeah yeah

Want a little bit - sing this song
