Don't push me too far, don't push me away
I'm not invincible like some might say
I've got a heart but it broke down long ago
It's held together by the people that I know.

Sittin' here waitin' for the walls to fall,
All I wanna do is make sense of it all for now
In this lonely town
Sittin' here waitin' for the one I love
The only one I can't stop thinkin' of for now
In this lonely town

No need to test me, I was tested long ago
I knew the answers that I didn't want to know
I crossed my fingers but it didn't seem to work
So I embraced the fall and everything that hurt

Sittin' here waitin' for the walls to fall,
All I wanna do is make sense of it all for now
In this lonely town
Sittin' here waitin' for the one I love
The only one I can't stop thinkin' of for now
In this lonely town

Sittin' here waitin' for the walls to fall,
All I wanna do is make sense of it all for now
In this lonely town
Sittin' here waitin' for the one I love
The only one I can't stop thinkin' of for now
In this lonely town

Sittin' here waitin' for the walls to fall,
All I wanna do is make sense of it all for now
In this lonely town
Sittin' here waitin' for the one I love
The only one I can't stop thinkin' of for now
In this lonely town
