Kiss Kiss Bang Bang
Kiss Kiss Bang
Kiss Kiss Bang Bang
Kiss Kiss Bang Bang

(Wrekonize)
Shades on my face, DCs on my feet
Walkin' through the dirt cuz there's disease in
the streets.
Get it up, get a little bit of toxic fumes.
In the middle of a clot that's doomed.
Fiddle with a riddle watch it boom!
In a sizzle on whatever block you choose.
Droppin' off bombs in the shopping mall
Takin' out the excess mess yes let's it
poppin' ya' all
Am I fazed by em not at all
Cuz haters don't know dick if they don't possess
the cock and balls
This is Egypt, Tunisia, Libya
Hold your people down, snatch the crown then get rid
of ya
If you've been corrupting this dog pound, giddy up
Bottom eating fucks, probably stuffed with Chlamydia,
I've been seeing a trend from beginning to end
Better tell all ya friend, they be stuck in a Benz
So let's stem, and send, this letter, that I'm
writing with a stranger's pen
They trippin' ACID if they think they gettin' me
muzzled
Cobra Kai sweep em high and watch their fuckin'
knees buckle!

Kiss kiss bang bang
Load em up and let's go riding through the
badlands
This is the beginning but it's feelin' like the last
stand
That's why we lighting up the tires and the gas
cans
Just cuz it's about to go down, down down down
down down down

Itâ€™s goinâ€™ down down down down down down
down down

I hate your guts
Good morninâ€™, how ya doinâ€™
This everyday, thatâ€™s how we fuckinâ€™ do it
lâ€™m, lâ€™m out the door
If not, we both movinâ€™
That bullshit that youâ€™re talkinâ€™s foreign
lâ€™m not fluent
How do these fakes do it
This sh*i ainâ€™t natural
If you are from the future
Then whereâ€™s your capsule
Old bastard I finally mastered it and passed the cast to
the name
My moments runninâ€™ much faster
So thinkinâ€™ itâ€™s a waste
Face plant, she in my lap
Digginâ€™ for some more cash
Sinking deeper than that
Hoping to raise up her stats
You fuckers bending facts
You never did all that
You never took over cities and grinding with the axe
Nothinâ€™ but stray cats
Scratching each others backs
Scratching the surface of the glass house, where you
at?
Yall just some mice and I just my license to â€™ill
Is gon be fighter fly when they lighting up that still.

Kiss kiss bang bang
Load em up and letâ€™s go riding through the
badlands
This is the beginning but itâ€™s feelinâ€™ like the last
stand
Thatâ€™s why we lighting up the tires and the gas
cans
Just cuz itâ€™s about to go down, down down down
down down down
Itâ€™s goinâ€™ down down down down down down
down down

[Tech N9ne]

If weâ€™re summoned, then weâ€™re gunnin â€™ 30
round drum and now youâ€™re done in
Itâ€™ll be stunninâ€™ when we come in and your front
is where we run in
Do you soo woo do the blue who crew you choose?
I donâ€™t give a damn about the color in the shoes,

only how many real niggas I can use
When the demons get ta fiendinâ€™™ , white wings and
the king has been steaminâ€™™
Cause of the green, everything is really mean and
lusting for the cleaninâ€™™
Are the angels bang hell, till the muthafuckas became
frail
Canâ€™™ t tell you the mane, your reign fell
Fine, the witch is dying, the wicked tryinâ€™™ to get it
If rhyminâ€™™ is this kind of cryptic slime to dimiss,
lâ€™™ m acidic
Bismallah, in a minute wah lah, youâ€™™ ll be in
darkened days
Where the people donâ€™™ t ride Maybachs, they pack
and sparkinâ€™™ Ks
lâ€™™ m talking bout you uppity niggas, I been around
that for years
lâ€™™ m the righteous, nicest life, butâ€™™ ll fight and a
killa right hea!
Down with your mad clan
Bow kiss your dadâ€™™ s hand
I.X. my flesh, now get yo last brand
Call me a madman and lâ€™™ ll welcome you into my
badland, heh?

Kiss kiss bang bang
Load em up and letâ€™™ s go riding through the
badlands
This is the beginning but itâ€™™ s feelinâ€™™ like the last
stand
Thatâ€™™ s why we lighting up the tires and the gas
cans
Just cuz itâ€™™ s about to go down, down down down
down down down
Itâ€™™ s goin down down down down down down down
down
