[Verse 1]

I didn't know who would listen
Didn't know what I was saying before
Now you're walking in that door with a mission
I hope your mind changes some more
Ohh

[hook]

i wanna feel what it's like
To attempt to be fly
Fall hard and crash down
I wanna know what it's like
To get up and realize
That you never once backed down
I wanna smile like you, cry like you, die like you will
But not before I'm born
Please, let me live

[Verse 2]

I know this life will be no bed of roses
That's fine, I'll dig through that dirt anyways
And if I do fight hard enough for both us
I'm sure we can see brighter days
Ayy

[hook]

I wanna feel what it's like
To attempt to be fly
Fall hard and crash down
I wanna know what it's like
To get up and realize
That you never once backed down
I wanna smile like you, cry like, die like you will
But not before I'm born
Please, let me live
