I'm tryna see the big picture now
I'm tryna see my life lookin' down
I used to think that all that would last
Until it all came crashing down, down
Brick by brick, build it back
Till it fits, after I'll...
I'll be stronger, I'll be ready
Can't break this
This is for family, and kimfo
Ryan and Renae
This is for others, and downers
And those who high today
This is 'cause every things for sale but you never really
own it
I used to have it all, now I'm rollin' with these roaches,
roaches
with these roaches, roaches, rollin with these roaches,
roaches
Used to have it all now I'm rollin with these roaches,
roaches
with these roaches, roaches, but it's still potent, potent
used to have it all now I'm rollin' with these roaches,
roaches
