There is nothing to change
(Constitution is stable?)
Can you please arrange
The meeting at the golden table
Weâ€™ re the two (raw birds?) who rule the world
So they canâ€™ t sell me dolphins
Which I canâ€™ t caress with my mannequins
With my mannequins

[chorus]

We are living in a science fiction movie
We are fighting with the demons in the night
We praise, we praise, the bites

We are living in a science fiction movie
We are fighting with the demons in the night
We praise, we praise, the bites

You just put on your new shoes
So your friends recognize you
A hard working (neigh~s?) behind you
In the third row
You listened and obeyed all day
Now itâ€™ s time to change the (rooms?)
On your (house?) in this (glimmering night?)
Donâ€™ t stay behind, donâ€™ t stay behind
Like a mannequin

[chorus]

We are living
We are the bites
We are living

[chorus]
